ABOUT THE SCHEME

CU GREENER HOMES

CU Greener Homes, a collaboration between Credit Unions, Energia and House2Home, is a full-service solution to help customers with home energy efficiency improvements. Customers will avail of a low cost Credit Union loan and guided expertise throughout the project. All building works are managed directly by House 2 Home and conducted by a network of community based contractors. Grants of up to 40% are discounted up front by House 2 Home.

THE NATIONAL HOME RETROFIT SCHEME

The National Home Retrofit Scheme allows homeowners who wish to significantly improve their energy rating apply for grants up to 40%. In fact, a minimum grant of 35% is available. This is great news for Irish homeowners and demand for home renovations is set to grow rapidly as a result in 2021 and beyond. The grant applies to deep retrofit projects where the energy rating of an existing home is improved greatly by upgrading multiple aspects of its structure and energy systems.

WORKS INCLUDED IN THE SCHEME:

- Floor Insulation
- Wall Insulation (Cavity, Internal & External)
- Windows & Doors
